DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

- In Figure 22, label --Prior Art--.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Claims 1, 26, and 32 recite a matching device for a receiving section to receive a first frequency band and a second frequency band lower than the first frequency band comprising a first terminal connected to an antenna, a first inductor connected between the first terminal and a first node, a second inductor connected between the first node and a ground and having a capacitive impedance in the first frequency band and an inductive impedance in the second frequency band, a first capacitor connected between the first node and a second node, a second terminal connected to the second node and the receiving section, and a thirds inductor connected between the second node and a ground.

None of the prior arts shows or suggests this matching device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
